

Safe Dayz™

What is Safe Dayz?

Safe Dayz helps you measure your safety on the road, when driving and as a passenger.

Why do I need Safe Dayz?

Your Safe Dayz unlocks your Momentum Insure Safety Bonus.

Safe Dayz + Safety Score + Status = Rewards

What do I need to do?

Download the Momentum app and activate Safe Dayz → Stay safe → Know your Safety Score

How do I get Safe Dayz?

Drive safely

Take the train

Have a travel-free day

How does Safe Dayz measure my safety?

On the roads

You will get a score for every journey you make, made up of various components. Get a daily score of 60% or more to have a safe day.

- 1 Time of day
- 2 Relative speed
- 3 Familiarity
- 4 Smoothness
- 5 Speeding
- 6 Acceleration
- 7 Deceleration

Off the roads

When you don't travel, you will automatically be awarded a safe day.

How many Safe Dayz do I need?

Get rewarded from your first safe day. You get 1 point for each safe day, up to a combined total of 80 points for the year for activating and having Safe Dayz.

Safety Score	Safe Dayz	Bronze	Silver	Gold	Platinum	Private Club
>80%	>=27 p/m	7,5%	10%	15%	25%	30%
71% - 80%	22 - 26 p/m	5%	7,5%	10%	20%	22,5%
55% - 70%	15 - 21 p/m	0%	5%	7,5%	10%	15%
<55%	8 - 14 p/m	0%	0%	5%	5%	5%
	1 - 7 p/m	0%	0%	2,5%	2,5%	2,5%
	0 p/m	0%	0%	0%	0%	0%

Members require a Safety Score and the relevant number of Safe Dayz to receive a yearly Momentum Safety Bonus on their Momentum Insure premiums, even if they claim. To qualify for the safety bonus, you need to complete your Safety Score, submit the necessary validations and have Safe Dayz. The information we use to score your safety is only for rewards and will not affect your Momentum Insure claims.

Maximise your Safe Dayz

Improve your time of day score

Accidents are more likely to happen if you drive at night or during peak hours.

- Avoid driving late at night or during peak times.
- It is possible to score 60% for your journey even if you travel at peak times.

Improve your relative speed score

Relative speed calculates your speed when travelling and then compares it to other drivers.

- Try to drive at the same speed of other drivers on a stretch of road.
- It's possible to have a high speed score, but a low relative speed score.

Improve your familiarity score

This measures the number of times you have travelled on a particular road to determine how familiar you are with the route.

- Drive the same route consistently to become aware of your surroundings and the flow of traffic on the route.
- The more familiar your route, the safer you are and the higher your score.
- If you're new to using the app, your familiarity score will be lower at first until a history has been built up.

Improve your smoothness score

Consistent smooth driving allows you to react quicker in hazardous situations, reducing your risk of having an accident.

- Approach and round corners slowly by giving yourself enough time to brake.

Improve your speeding score

The speed score measures whether you are exceeding the speed limit of the road you are on.

- Stay within the road speed limit to get the best score.

Improve your acceleration and deceleration scores

- Try to accelerate gradually as taking off quickly could result in losing control of the car.
- Try to brake gradually because harsh braking could result in a higher accident risk.
